SIMPLICITY THROUGH INNOVATION

Shaping the future of Logistics

Personal attention.
Professional logistics.
Purposeful progress.

Your Cargo. Your Business.

Our Experienced Team Executing Every Detail.

30+ years' industry expertise | Women-owned | B-BBEE Level 1 Contributor

Your Cargo is never just another shipment

WISTS is a women-owned logistics company built on more than 30 years of industry experience.

We deliver holistic, tailored solutions that make complex supply chains feel simpler—combining personal attention, clear communication and one accountable point of contact from origin to destination.

We take time to understand your business, your cargo and the pressure behind every deadline.

Then we coordinate the details, manage the moving parts and keep you informed at every step.

Supporting import and export movements across key trade corridors, including China, India and the Middle East.

Industries we move forward

Mining Commodities

Specialist export coordination for chrome, fluorspar and other commodities, with close control of documentation, handling and delivery schedules.

Manufactured Goods

Integrated logistics for raw materials, components and finished goods across international and domestic supply chains.

Consumer Products

Responsive import, warehousing and distribution support designed to keep stock moving and customers supplied.

Project Cargo & Industrial Equipment

Careful planning and specialist coordination for complex, heavy, oversized and high-value cargo.

"WISTS understands our business and always builds the solution around what we actually need."

"Their communication is clear, proactive and transparent—we always know where our cargo stands."

Connected logistics services. One accountable team.

From a single shipment to a complex supply chain, WISTS brings the right services, partners and expertise together around your business.

International Freight Forwarding

Seamless global transport solutions tailored to your cargo and timelines.

Customs Clearance

Efficient compliance and clearance that keeps your supply chain moving.

Warehousing & Distribution

Secure storage and agile distribution to meet demand, anywhere.

Project Cargo & Heavy-Lift Logistics

Specialist handling of oversized and complex cargo with precision and care.

Import & Export Logistics

End-to-end import and export management for smooth, compliant trade.

End-to-End Supply Chain Solutions

Integrated solutions that connect every step of your supply chain.

"The team takes ownership from start to finish, making even complex shipments feel manageable."

The personally managed alternative to impersonal, process-heavy logistics.

The difference is in how we handle the details.

We work as an extension of your team—acting in your best interests, solving problems early and taking ownership from the first conversation to final delivery. We move your logistics with simplicity.
